ABOUT US

Sakoon Pneumatics is Authorized Service Provider for Both CompAir and Gardner Denver (Ingersoll Rand) Brand of Air Compressor and Associated Accessories in Pakistan.

We also provide Premium Screw Air Compressor Services and Spares for all types of other famous brands.

Experienced in Compressed Air Systems for 40 years, Sakoon Pneumatics is known for excellent services and after-sales support. Depending on Industrial needs, our team of qualified technicians schedule ideal maintenance plans for your compressed air system which lead to optimum machine performance, reduced downtime and increase productivity.

SERVICES

■ COMPRESSED AIR SYSTEM HEALTH CHECK SERVICES

Do you know how efficient your Compressed Air System is? Have you seen any Compressed Air Expert recently? Is there any recurring problem you are facing with your air compressors? What are actual system requirements for your compressed air facility?

Experts at Sakoon Pneumatics answer all these questions with Health Check Services. Preventive Maintenance being the precautionary measures of a system, but a Health Check supersedes it in terms of system optimization. A normal Health Check visit can save you millions by diagnosing underlying defects, tracking down inappropriate usage and indicating wrong selection of equipment.

Evaluate Compressor Room Standards

Selection of Right Downstream Equipment

Improve Piping System Efficiency

Analyze Condensate Maintenance

■ COMPRESSOR SERVICE (CONTRACTS)

Sakoon Service is committed to keeping its customers premium quality products in mint condition with our premium quality service, "Sakoon". Sakoon is a specialist in troubleshooting services, predictive and preventive maintenance, and has a certified service team to take care of our customers.

Since 1980, Sakoon has been providing premium quality Service Contracts through Gardner Denver trained service teams at Karachi, Hyderabad, Multan, Faisalabad, Lahore, Sialkot, Gujranwala, and Islamabad.

Routine and emergency service is available to more than 4,000 CompAir Compressors installed in Pakistan as well as to customers using almost all compressor brands.

■ AIREND SERVICE

Turnaround time in as little as 5 to 7 days:

Air ends of screw compressors in industrial applications are exposed to heavy operation and thus underlie permanent wear. Sakoon specializes in compressor Airend rebuild service to make your compressor run reliable again, with 6 months warranty.

To get started **Send Your RFQ Today**

- ✓ After you place your order, you'll skid your airend and ship it per our instructions
- ✓ Airend arrives at our repair center. The airend is inspected and enters our rebuild process
- ✓ Airend rebuild is completed in 3 to 5 business days
- ✓ Unit is skidded and packaged appropriately and shipped back to your location

■ INSTALLATION

We will take care of the installation and make sure that your system is ready for operation on schedule and to your full satisfaction. You can decide yourself which services to choose.

■ COMMISSIONING

After installation, our qualified specialist staff will commission your compressed air system, configure the parameters according to your requirements and carry out a full function test. You and your employees will then receive detailed instructions on how to operate the system.

■ MAINTENANCE

Count on Sakoon. We will take off air compressor service. Our nationwide service network can process your request quickly. We accept service at face value and offer you a maintenance contract specifically for your compressed air system. With a system repaired by our training team benefit for:

If you have a service contract with Sakoon, our service staff would be glad to remind you when maintenance work is due next.

1 – Preventive Maintenance, Service Contracts

Scheduled Maintenance including parts replacement specified as per operating manual.

- The primary goal of maintenance is to avoid the consequences of failure of equipment. This may be by preventing the failure before it actually occurs which Planned Maintenance and Condition Based Maintenance.
- The ideal preventive maintenance program would prevent all equipment failure before it occurs.

2 – Emergency Breakdown Service

“Anytime...Day or Night.” 24/7 Emergency Breakdown Service

3 – Maintenance Parts Subscription

If you wish to maintain your machines yourself, you can choose to have the necessary maintenance parts delivered regularly as part of a subscription so that you avoid spending time ordering parts and never forget to maintain your machines again!
