SAKOON COMPRESSOR OIL 3000SS+

Sakoon Compressor Oil 3000SS+ oils range of high performance based semi synthetic compressor lubricant, capable of giving the best available performance in any oil-flooded air compressor of screw vane design. They are fortified with selected additives to provide long oil life and effective lubrication in air screw compressors working in extremes of temperature and operating conditions.

CHARACTERISTICS

Sakoon Compressor Oil 3000SS+ being developed and blended with selected additives provides oxidation and rust protection. Good air release, water separation and low foaming properties are also achieved in these lubricants. These lubricants can be used where anti-additives are not allowed. Extended oil drain intervals up to 6000 hrs can be achieved.

PERFORMANCE STANDARDS

Sakoon Compressor Oil 3000SS+ meets and exceeds the following specifications:

DIN 51506 VDL, 51352-2
NF-ISO 6743 DAJ

TYPICAL DATA

ISO Viscosity Grade	46	68
K. Viscosity mm ² /s@40 °C	46	68
Density @15°C	0.8304	0.8501
Viscosity Index	133	123
Flash Point, COC, °C	228	238
Pour Point, °C	-34	-32
