ABOUT US

With 44 years of excellence in the compressed air systems, Sakoon Pneumatics specializes in Air Compressor Service with genuine replacement parts, compressor oil and Airend Rebuild service. We have been optimizing the efficiency of the supply side of compressed air systems in every industry through smart maintenance plans.

Sakoon offers full support to its customers through rental compressor service in case of emergency breakdown, during Airend rebuild service or peak production times.

Experienced in Compressed Air Systems, Sakoon Pneumatics is known for excellent services and aftermarket support. Depending on Industrial needs, our team of qualified technicians schedule ideal maintenance plans for your compressed air system which lead to optimum machine performance, reduced downtime and increase productivity.

SERVICES

■ COMPRESSED AIR SYSTEM HEALTH CHECK SERVICES

Do you know how efficient your Compressed Air System is? Have you seen any Compressed Air Expert recently? Is there any recurring problem you are facing with your air compressors? What are actual system requirements for your compressed air facility?

Experts at Sakoon Pneumatics answer all these questions with Health Check Services. Preventive Maintenance being the precautionary measures of a system, but a Health Check supersedes it in terms of system optimization. A normal Health Check visit can save you millions by diagnosing underlying defects, tracking down inappropriate usage and indicating wrong selection of equipment.

Evaluate Compressor Room Standards

Selection of Right Downstream Equipment

Improve Piping System Efficiency

Analyze Condensate Maintenance

■ AIR COMPRESSOR SERVICE

Sakoon Service is committed to keeping its customer's premium quality products in mint condition with our premium quality service, "Sakoon". Sakoon is a specialist in troubleshooting services, predictive and preventive maintenance, and has a certified service team to take care of our customers.

Since 1980, Sakoon has been providing premium quality Service Contracts through trained service teams at Karachi, Hyderabad, Multan, Faisalabad, Lahore, Sialkot, Gujranwala, Peshawar and Islamabad.

Routine and emergency service is available to more than 5,000 Rastgar' Compressors installed in Pakistan as well as to customers using almost all compressor brands.

Air Compressor Maintenance

Count on Sakoon to keep your air compressor running smoothly. Our nationwide service network is ready to respond to your maintenance needs promptly.

Benefits of a Sakoon Maintenance Contract

- Proactive Maintenance: Timely reminders to prevent unexpected breakdowns.
- Expert Technicians: Our skilled team ensures optimal performance.
- Quick Response: Efficient service to minimize downtime.
- Customized Plans: Tailored solutions to meet your specific needs.

■ AIREND REBUILD SERVICE

Your compressor's air end is subjected to constant wear and tear. Trust Sakoon to restore its performance with our expert Airend Rebuild Service.

Key Benefits:

Rapid Turnaround: Your airend is back in operation in just 5-7 days.

Expert Craftsmanship: Our skilled technicians ensure precision and quality.

Extended Lifespan: Revitalize your compressor for years to come.

Comprehensive Warranty: Your rebuilt airend is backed by a 6-year warranty.

The Sakoon Airend Rebuild Process:

Order Placement: Simply send us your RFQ.

Shipping: Skid and ship your airend to our repair center.

Inspection and Rebuild: Our experts thoroughly inspect and rebuild your airend.

Return Shipment: Your refurbished airend is shipped back to you.

■ EXPERT COMPRESSOR INSTALLATIONS

Our skilled technicians ensure seamless and efficient installations of your compressed air systems. From planning to execution, we prioritize safety, precision, and optimal performance. Experience the Sakoon difference with our reliable and hassle-free installation services.

■ YOUR SYSTEM, COMMISSIONED TO PERFECTION

Rest assured, our expert team will commission your system to deliver peak performance. We'll fine-tune settings, perform thorough tests, and provide in-depth training, ensuring a smooth transition and worry-free operation.

■ PREVENTIVE MAINTENANCE, SERVICE CONTRACTS

Scheduled Maintenance including parts replacement specified as per operating manual.

If you have a service contract with Sakoon, our service staff would be glad to remind you when maintenance work is due next.

- The primary goal of maintenance is to avoid the consequences of failure of equipment. This may be by preventing the failure before it actually occurs which Planned Maintenance and Condition Based Maintenance.
- The ideal preventive maintenance program would prevent all equipment failure before it occurs.

2 – Emergency Breakdown Service

- “Anytime...Day or Night.” 24/7 Emergency Breakdown Service

3 – Maintenance Parts Subscription

If you wish to maintain your machines yourself, you can choose to have the necessary maintenance parts delivered regularly as part of a subscription so that you avoid spending time ordering parts and never forget to maintain your machines again!
